

Joint Commission Public Notice

The Joint Commission will conduct an unannounced accreditation survey at SCCHC in the calendar year 2010. JCAHO surveys organizations to assess compliance with nationally established Joint Commission standards. The survey results will be used to determine whether accreditation should be awarded to our organization.

The Joint Commission accreditation initiative, Helping Healthcare Organizations Help Patients, assesses services that the health center provides including but not limited to quality of care issues, patient safety, and the safety of the environment in which care is provided. Anyone believing that they have pertinent and valid information about such matters is encouraged to contact the health center's management. If the concerns cannot be resolved through the health center's organization, the individual is encouraged to contact the Joint Commission at:
